PHOTO: WHAT is Drew Barrymore holding? Proof of baby on board?

When rumors start that a star is pregnant, it's usually because photos show the celeb with a bit of a belly. THIS is not the case for Drew Barrymore!! BUT this picture is making everyone wonder BIG TIME!

NO baby bump in sight... but did you notice that she's holding a sonogram photo?? With her, when this picture was taken, her bump is nearly two months. Will Kopelman...
